Reference Data:

Sample Location:	Lanxess
Sample Type:	Canister
Client Sample No.:	HCDES3062705
PO #:	270047685
Method Reference:	TO-15
Sample Set ID#:	05-M-3484
DATA CHEM Lab No.:	05-22015
Sample Receipt Date:	6/28/2005
Analysis Date:	6/28/2005

Sample condition was acceptable upon receipt except where noted.

The above numbered samples were analyzed for volatile organic compounds by EPA method TO-15 using an Entech 7000 Cryogenic Preconcentrator and a Hewlett-Packard GC/MS/DS operating in the scan mode.

Quantitation is based upon average response factors generated from a five-point curve. The results are provided in the enclosed data table. Results relate only to the items tested and are not blank corrected.

This report shall not be reproduced except in full, without the written approval of the laboratory.

A handwritten signature in black ink that reads "Mark Johnson". The signature is written in a cursive style with a horizontal line underneath it.
