Fuel Tanks

Packing Tips

- Leave materials in original containers.
- Line bottoms of cardboard boxes with newspaper.
- Pack like products together.
- Haul materials in trunk to minimize odors.
- Layer absorbent materials between items to act as a cushion and absorb spills.

Caution!

Some materials react with others, producing violent reactions or toxic gasses. Keep all products in original containers, seal properly, and handle carefully to prevent leaks and spills.

Restrictions

Federal law bans the acceptance of hazardous materials from commercial sources, contractors, businesses or schools during residential collections.
