

THE CONCOURSE CLEAN, FUNCTIONAL, INNOVATIVE.

The "Concourse" will transform and enhance the quality of your environment while providing a versatile and attractive unit that can be customized to suit all your outdoor furniture needs. We use only materials that withstand the demands of heavy usage and extreme climates. We provide unique, vandal and graffiti resistant second surface signage.

THE CONCOURSE

DESCRIPTION

The versatility and modularity of this attractive unit is unmatched in the street furniture industry. The Concourse not only provides a separate seating area with a single fixed angle advertising face but it also incorporates full garbage and recycling collection bins.

The "fence-like" construction-style design allows the various components to almost "hang" off of the fixed posts. The design also provides the opportunity to extend and incorporate other additional features such as bike racks, newspaper facilities, etc., in one seamless structure.

Over 20 years of COA's knowledge and experience in the street furniture industry have gone into the design of this unit, making it one of the most innovative full facility stations ever designed.
