

Attachment D

**2007 - 2008 School Waste Minimization Grant
District Recommendations for Funding**

APPLICANT: **Finneytown Secondary Campus**
AMOUNT REQUESTED: \$492.00
RECOMMENDED FUNDING: \$492.00
TOTAL PROJECT COST: \$1861.89
PROJECT SUMMARY: Finneytown Secondary Campus students would like to expand their recycling program to include the sport complexes. Students with moderate to severe disabilities have been operating the program for 5 years. Grant funds will be used to purchase recycling receptacles and supplies for the new areas. The total amount requested is \$492.00.

APPLICANT: **Mother of Mercy High School**
AMOUNT REQUESTED: \$1560.00
RECOMMENDED FUNDING: \$900.00
TOTAL PROJECT COST: \$4920.00
PROJECT SUMMARY: Mother of Mercy High school would like to expand their recycling program, conduct waste assessments, and establish a recycling program at their new Media & Technology Facility. Additionally, students conduct an extensive plastics research project with the University of Cincinnati's Engineering department. The project will involve an in depth study of plastics and the design of recycled content products. Grant funds will be used for recycling containers, supplies, and a teacher stipend. Mother of Mercy also requested funds for the cost of recycling collection; however, the school already is funding that part of the grant program.

APPLICANT: **Princeton City Middle School**
AMOUNT REQUESTED: \$1,654.00
RECOMMENDED FUNDING: \$1,654.00
TOTAL PROJECT COST: \$11,000.00
PROJECT SUMMARY: Princeton City Middle school would like to develop a model of efficient waste management that can be adapted to the nine other schools in the district. They will

expand their current paper recycling program to include corrugated cardboard and aluminum. They will also research other waste reduction strategies. The middle school students will conduct recycling presentations at the elementary school and prepare a report to share their findings with all the principals in the district and the Board of Education. Grant funds will be used for hauling, recycling containers, can crushers, supplies, and a teacher stipend.
